

CHILDREN'S THERAPY CENTER

Celebrate what is. Commit to what can be.

Children's Therapy Center Sensitive Location Designation

Since 1979 Children's Therapy Center has been devoted to serving children with special needs and their families. We provide Physical Therapy, Occupational Therapy, Speech Language Therapy, Special Education and social supports to the families in our communities. At Children's Therapy Center we inclusively welcome and serve all families, and we celebrate the differences that make each family unique. We recognize the importance of parents, family and other caregivers in child's success, and we welcome children, families and caregivers of all races, nationalities, ancestries, religious affiliations, gender identities, sexual orientations, marital statuses, abilities and backgrounds to participate in our programs. It is through the essential partnership with parents, families and caregivers that a child is able to reach their full potential.

Children's Therapy Center has been, and will continue to be a champion of kids and families in our communities. Children's Therapy Center offers safe place for children with special needs, and their families to learn, and grow without the fear of judgment, separation or exclusion.

With this in mind, Children's Therapy Center affirms the designation of all of our locations as sensitive locations for all immigrant families. Children's Therapy Center has a responsibility to the communities we serve, to protect the rights of those we serve. As with other sensitive locations, such as schools, hospitals and churches, we expect federal authorities not to conduct immigration enforcement raids on any of our properties. We call on local, state, and federal leaders to recognize Children's Therapy Center's important role in our communities as a medical and educational services provider, and a champion of kids and families. Since 1979 we have worked as a partner in our communities, serving children with special needs and helping kids and families reach their full potential. We strive to protect our ability to continue to serve kids with special needs, and their families and caregivers in a safe and inclusive environment.
